

CREWS LAUNCHING FROM OTHER SITES
 Crews launching from FALS will proceed downstream on the Boston side of the river. You may enter the starting chute at the beginning of the **Queuing Zone** or continue along the Boston shore and enter the **Warm-Up Zone** in a counter-clockwise direction.

IMPORTANT
 All crews must be in the chute within **5 minutes** of the start of their race

QUEUING ZONE
 Once in the Queuing Zone, boats should proceed **parallel** to one another with the **odd** bow numbers on the **Boston** side and **even** bow numbers on the **Cambridge** side. Only proceed **single file** once you approach the **Start Line**.

WARM-UP ZONE
 All crews using the Warm-up Zone must obey the **counter-clockwise traffic pattern** around the buoyed area. All crews must yield to the discretion of the River Control Launches. Crews must stay off-shore of the buoy lines delineating BU and MIT docking areas. No crew may proceed past the Harvard Bridge into the Unmonitored Zone (unless the launched downstream of the bridge).

BOATS ENTERING QUEUING ZONE:
 From warm-up loop, please enter the queuing zone just upstream of the MIT Boathouse using **extreme caution**.
