

HEAD OF THE CHARLES

BOSTON • CAMBRIDGE

100 YEARS

1 9 6 5 - 2 0 2 5

Athlete Guide

IN PARTNERSHIP SINCE 1965 WITH

MASSACHUSETTS DEPARTMENT OF
CONSERVATION AND RECREATION

LOCATION AND HOURS

- **Monday, October 13** 6PM – 8PM at the Attager Registration Tent
- **Tuesday, October 14** 6PM – 8PM at the Attager Registration Tent
- **Wednesday, October 15** 6PM – 8PM at the Attager Registration Tent
- **Thursday, October 16** 3PM – 7PM at the Attager Registration Tent
- **Friday, October 17** 12PM – 6PM at the Attager Registration Tent
- **Saturday, October 18** 7:30AM to 12PM at the Attager Registration Tent

REGISTRATION GUIDELINES

- **Friday racers** must register by the end of the day Thursday (unless by prior arrangement by contacting regatta@hocr.org).
- **Saturday morning racers through event 22** must register by the end of the day Friday. Sunday racers must register by the end of the day Saturday. Registration is not open on Sunday.
- Single scullers and one person from a double or pair must bring photo identification to registration. Youth and college-championship entries are exempt from this requirement.
- **Competitors must register at least 3 hours before their race.**

WAIVERS

All athletes will need to hold at least a basic membership from USRowing. If you have already signed the USRowing waiver this year, then you are all set. To read more and purchase a USRowing membership, please click [here](#).

International athletes will need the **free** USRowing International Membership available [here](#).

ROSTERS

Line-Ups must be completed through [RegattaCentral](#) before arriving at Onsite Registration. The deadline for finalizing your lineup is October 10th. Scullers are reminded that lineups in 1x and 2x events cannot be changed after the time of entry application, with the exception of the Youth 1x, Youth 2x, Para Inclusion 2x, and College-Championship 2x crews.

A representative from a team may come to collect packets. This individual will be considered responsible for those competitor packets. Changes to line-ups and/or missing waivers will result in a delay in pick-up. All 1x scullers and one representative from each 2x scull must attend Registration.

Scullers racing **Unaffiliated** must bring proof of USRowing Championship level membership.

weigh-in guidelines/

LOCATION

Lightweight teams must also register for a time to collect their packet. The Weigh-In tent is located next to the Attager registration tent at FALS.

HOURS

- **Friday, October 17** 12PM – 5PM
- **Saturday, October 18** 7:30AM – 3PM

WEIGH-IN RULES

- All lightweight rowers are required to weigh in prior to claiming the registration packet.
- Coxswains are on their honor to meet the 100 lb. weight minimum, and will not be weighed.
- Competitors must present a valid photo ID—passport, state driver's license, etc.—prior to stepping on the scale. For sweep boats, all boat members must be present with their valid photo identifications in order for the boat to weigh in. No exceptions.
- Competitors must be dressed in appropriate racing attire. No exceptions.
- All rowers and coxswains must be present by boat. Any competitor that does not make weight will be permitted to make additional attempts. Coxswains are not required to weigh in. If a competitor requires additional weigh-in attempts, only the athlete who has not made weight must weigh-in again.
- Only competitors rowing in singles and doubles events are permitted to weigh in on Friday. All competitors may weigh in on Saturday, with priority given to competitors rowing in singles and doubles events.

HOCR FALS VENUE

Artesani Park, Allston, Massachusetts

Google Map
HOCR FALS

RULES OF THE FALS DOCKS

- Docks and launch areas are restricted to competitors plus one (1) boat representative (i.e. coach).
- Crews and coaches must follow the directions of the dock staff, as they are there for the safe operation of the docks.
- Depending on practice, race and weather conditions—either landing or launching may take priority. Docks are routinely busy, please be patient and cautious, and always listen to the staff managing the docks.

DOCK HOURS

- **Friday.** Docks will be staffed by HOCR volunteers from approximately 7AM to 6PM. No boats may launch after 5PM and must be off the water by 6PM. All boats launching at 4PM or later on Friday must have lights attached to the bow and stern decks.
- **Saturday/Sunday.** Docks will be staffed by HOCR volunteers from approximately 7AM to 5PM. There is **NO** practice on Saturday afternoon after racing.
- Launching or landing on the dock without volunteer staff is performed at the crew's risk.

COMMISSION CONTROL

All boats will be checked for the following prior to launching onto the Head Of The Charles course. If the items below are not present, boats will be asked to step out of the launching line to make necessary corrections.

BOW BALLS

- All boats **must** have an appropriate bow ball affixed firmly or they will not be able to launch for practice or racing.
- Competitors are responsible for obtaining a bow ball if necessary.

HEEL TIES

- For boats with traditional foot stretchers, heel ties are mandatory. No ties are needed for rigid sole / virtual pivot foot stretchers.
- The “three finger rule” is employed as an acceptable gauge for slack between shoe and foot plate.
- Boats must have heel ties attached from the shoe to the footplate boards in the boat for traditional stretchers.
- Competitors are responsible for obtaining heel ties if necessary.
- Please be aware that heel ties will be checked every time a boat approaches the race course for practice or competition.

PRIOR TO LAUNCHING

All crews must be prepared for the following before approaching the FALS docks:

- Oars—All oars should be in the oar racks at the dock area prior to launching.
- Oarlocks—Must be open and hanging loosely before the competitors set foot on the dock
- Shoes—It is suggested that crews take their footwear with them in the boat or leave them with a crew representative.
- Shoes left unclaimed at the dock will be collected and will be removed to lost and found.

LAUNCHING

- Please prepare to launch 65 minutes prior to your event time, unless otherwise directed by volunteer staff.
- Boats shall enter the launch area bow first unless otherwise instructed by volunteer staff.
- There may be a long wait to launch, especially during Friday practice. Crews should bring their own slings (and be prepared to remove them from the launch area when they launch) if they do not want to hold the boat while waiting.
- HOVR volunteer staff will carry the oars on and off the docks.
- Crews should launch within 30 seconds from when they place their boat in the water
- Please be careful putting in and taking out boats as the Charles River may be shallow and/or rocky near docks.
- Crews will tie in to their shoes once on the water, not on the dock, or while launching.

LANDING

- Crews are expected to land and be off the dock within 60 seconds of landing.
- Crews may be asked to put on their shoes after leaving the dock to speed dock operations.
- The boat representative should be ready to assist with bringing shoes upon the boat's arrival at the dock.
- When landing at any dock, use extra caution when carrying your boat out of the launch area, as you will be immediately entering the public pedestrian footpath that is often very crowded.

map of fals location

HOCR SADL VENUE

Magazine Beach, Cambridge, Massachusetts

HOCR 1965-2025 60

UPDATED SEPTEMBER 2023

HEAD OF THE CHARLES® REGATTA

MASSACHUSETTS DEPARTMENT OF
CONSERVATION AND RECREATION

Rules for the Singles and Doubles Launch site (SADL)

- Safety and sportsmanship must prevail always.
- Athletes and coaches must follow direction of the SADL Co-Chairs, Dockmaster(s), and River Control personnel.
- Only athletes and volunteers will be allowed on the dock or in the immediate ramp area.
- Shells must launch and land with bows facing upstream.

SCHEDULE

Boat Drop/Pickup

- Due to limited capacity, **reservations are required**. All boats must be stored on HO�R racks.
- Athletes dropping off shells will have 15 minutes for temporary parking to unload all equipment. Volunteers will be on hand to assist with boat/equipment drop off. All SADL users are expected to adhere to posted signage and follow the direction of any State Police Officials, DCR Rangers, and SADL volunteers.
- All vehicles will have to be moved prior to rigging. There will be limited parking available at the SADL site to be used only during rigging/practice/racing for SADL users.
- If you are car-topping on the day of your race, please do not arrive more than 2 hours before your event. If your boat is already rigged, please do not arrive more than 90 minutes before your event.

Parking

- Limited parking for SADL users will be available next to the equipment loading area in front of the MA Audubon building. Please follow instructions from DCR Rangers and Volunteers when parking.
- If parking is available, please see a SADL co-chair or SADL volunteer for an event-specific parking pass, good for 2 hours prior to/1 hour after your event. Your registration packet will be required to receive a pass. Please add your event number and phone number to your pass.
- Parking is always at the discretion of the Dept. of Conservation and Recreation (DCR), and the ranger on duty may close the lot if it becomes full.

Practice

- All athletes who hope to practice off the SADL dock should register for a practice window. On Thursday, launching is from 11am-2pm (all boats off the water by 3pm). On Friday, shells may only launch from 11am-3pm (all boats off the water by 4:30pm).
- No crossing of the river is allowed on Friday—you must row from the SADL dock to the finish line before spinning to row downstream to the start line. You must row all the way to the start before spinning to row back to the SADL dock.
- Practice rowing is not allowed after racing concludes on Saturday.
- As all SADL shells will be rowing off the RBC dock, there is no practice permitted prior to Thursday at 11am.

Race Days – Friday, Saturday and Sunday

- The dock will open at the discretion of River Control. Earlier launching is not permitted. On Friday, we will have over two hours of racing beginning at 7:45 am. Please refer to the schedule of events when planning your launch time.
- To avoid interference and ensure athlete safety, river crossings are only permitted at the discretion of the Dockmaster and River Control personnel, no exceptions. A penalty may be assessed for any competitor who disregards the instructions of the Dockmaster or River Control personnel.
- When crossing the course back to the dock, proceed to the River Control Station on the upstream side of magazine beach. You must row through the buoy line before stopping to spin towards the dock.

SAFETY

- No shell may launch without a standard bow ball securely attached at the bow of the boat. **No exceptions.**
- No shell may launch without heel tie downs for foot stretchers that require them. **No exceptions.**
- Heel ties must not be longer than 3 fingers width (2.5in/7cm) from shoe to stretcher. **Note that this standard may permit less slack than other regattas.**
- Wet launching is strictly prohibited as per HOCR regulations.

LAUNCHING

- Athletes are expected to launch and be ready to row within 2-3 minutes of arriving at the dock.
- Athletes must have Bow/Shirt/Stern numbers firmly affixed prior to approaching the dock area.
- SADL volunteers will assist with carrying oars and removing shoes from the dock.
- The Dockmaster will instruct athletes on when to shove off and cross the river. During busy periods, athletes may be instructed to tie in after shoving off and crossing.
- The SADL team will do their best to recommend launching windows, but you are ultimately responsible for launching on time.

LANDING

- River Control marshal (RC 13) will queue returning athletes and send them across the race course when safe, between events.
- Please queue up and follow the instructions of the Dockmaster when landing.
- Due to limited dock space, athletes are expected to clear the dock within 2-3 minutes after landing.
- In the event that you launch at SADL but will be landing at another dock on the river, please inform the Dockmaster before you launch.

EQUIPMENT STORAGE

- Given the space limitations associated with DCR construction, all shells must be stored on HOCR racks.
- Slings will only be permitted for temporary use when rigging and making adjustments to equipment. Any boat left unattended in slings will be placed on a rack.
- Volunteers will be available to help you find an available rack. If there are not volunteers on site, please refer to signage to determine where to place your equipment.
- You must bring your own straps to secure your boat to the rack. We recommend bringing foam to place on the racks to protect your equipment.
- Please add a name/phone number to equipment so we may contact you if anything is forgotten following the regatta.

In order to avoid congestion in the river, here are the recommended launch times for each event.

FRIDAY

EVENT	SCHEDULED START	BOW NUMBER	FROM FALS	FROM SADL
Senior-Veteran Singles Men [70+]	7:45 AM	all	6:35 AM	7:05 AM

awards distribution/

Award distribution takes place at the Awards Pavillion Sponsored by JP Morgan Wealth Management tent from Friday 11-4, Saturday and Sunday 10-5. The tent is located near Dock 1 and Eliot Bridge Enclosure. First place and special medals will be awarded during scheduled Award Ceremonies. Subsidiary medals will be awarded on a rolling basis. Medals will only be awarded after results are finalized in the RegattaCentral portal. For crews, one representative may come to pick up medals. For youth and collegiate programs, a coach must retrieve the medals. Any medals not picked up will be sent to crews in the mail after the Regatta.

First place boats may have their awards presented in the Attager Row tent.

The number of subsidiary medals awarded depends on the number of entries in the event:

1-9 Entries	Up to 1st Place awarded
10-19 Entries	Up to 2nd Place awarded
20-29 Entries	Up to 3rd Place awarded
30-39 Entries	Up to 4th Place awarded
40+ Entries	Up to 5th Place awarded

SPECIAL MEDALS

Special medals are awarded in the following events:

- The fastest crew made up of athletes representing a rowing club that is a member in good standing of its nation's governing body and that is unaffiliated with an academic institution in each event-division of the Club 4+ and Club 8+
- The fastest crew made up of undergraduates representing an accredited/chartered College or University in each event-division of the Championship 2x, 4+, and 8+
- The fastest Lightweight crew in each event-division of the Championship 2x
- The fastest athlete or crew under the age of 17 as of December 31 of the current calendar year in the Youth Single, Youth Double, Youth Coxed Quad, and Youth Eight
- The fastest Junior Varsity Eight in the Men's and Women's Championship Eight. In the spirit of the JV event, institutions must have at least one varsity crew of a higher standard, on the coach's honor, already registered.
- In the Para Inclusion 2x, the fastest female/female double, if a male/male or mixed double wins overall; the fastest Mixed Inclusion PR2 double; the fastest Mixed Inclusion PR1 double; the fastest PR3 Mixed double; the fastest PR2 Mixed double.

AWARD DISTRIBUTION

Awards will be open for medal awarding and distribution from 11am to 4pm on Friday, 10am to 5pm Saturday and Sunday. First place, special medals, and subsidiary medals will be awarded on a rolling basis once race results are finalized in the RegattaCentral portal.

Award presentation photos will be available for purchase/download after the Regatta at hocr.smugmug.com.

FIRST PLACE MEDALS

First place medals and special medals are distributed at the Head Of The Charles Awards Ceremonies at the Awards Pavilion sponsored by JP Morgan Wealth Management, located on Hospitality Row next to Dock 1.

2025 CEREMONY SCHEDULE

- Friday, October 17 - 2PM
- Saturday, October 18 - 12PM, 3PM, and 5PM
- Sunday, October 19 - 12PM, 3PM, and 5PM

SUBSIDIARY MEDALS

Subsidiary Medals will be available for pick-up at the Awards Pavilion from Friday 11AM - 4PM, Saturday 10AM - 5PM and Sunday 10AM - 5PM

map of awards location

Understanding How to Avoid Penalties is critical because no one wins in Interference. The wise sculler/crew knows that more time can be lost by pressing a situation rather than by slowing for the right moment to pass.

Where do most penalties occur?

Weeks Footbridge, Anderson Memorial Bridge and CBC (Eliot Bridge)

Which are the most frequent penalties?

Non-Yield (NY)

If the Passer moves to within one length (and closing) of open water on the boat being overtaken (and ahead), it is the responsibility of the slower crew to yield the line chosen by the Passer in a timely manner. The yield should be well underway by ½ length of open water. Failure to yield is a 60 second penalty and may only be incurred by the boat being overtaken, not the Passer.

Severe Collision (SC)

The Passer has the right of way to pass on the side of its choice if a safe pass can be accomplished. If a pass is attempted, the Passer must not press the right to pass creating a situation in which there is a severe collision. A Severe Collision penalty (60 seconds) may be assessed if, in the judgement of the umpire, the contact was likely to cause physical injury or damage to equipment. A severe collision incident can be caused by either a Passer or a Passee.

Disregard for Safety (SV)

A boat may be given a penalty for creating a dangerous situation that does not qualify as a severe collision. Examples might include forcing another crew into a bridge, steering a path that significantly impedes other crews, re-entering the course unsafely, etc.

How should I begin the pass?

Passing Guidelines

Remember that you do not have unlimited time to complete a pass. There must be adequate space and time to permit a safe pass. Be very cautious when passing, especially when approaching bridges. Plan ahead. Successful passing is a critical HOCR racing skill. As the faster crew, you must pick your desired line for the duration of the pass and communicate it to the crew you want to pass

Passing Situations: When does passing begin and end?

Beginning of the Pass (when the boat being passed must begin the act of yielding) If the Passer moves to within *one length* (and closing) of open water of the boat being passed, it is the responsibility of the slower crew to yield **the line chosen** by the Passer in a timely manner.

Completion of the Pass:

When there is open water (any length) between stern of the passing boat and the bow of the passed boat, the pass is considered complete.

Passing Situations: What happens if the boat being passed doesn't yield?

Non-Yield

Failure to yield the line **selected** by the passing boat is one of the most serious infractions of competitive conduct and will result in a 60-second penalty (NY) for Non-Yield. Once the boat being passed yields the line, they satisfy the criteria to yield. Any contact or unsafe situation after the initial yield would be covered under the Severe Collision (SC) or Safety Violation (SV) penalties.

Severe Collision or Disregard for Safety

If either boat in a passing situation causes a collision or unsafe situation during passing, that boat will be severely penalized. The standard penalty is 60 sec. for Severe Collision (SC) or Safety Violation (SV).

Passing Situations: What are the responsibilities of the overtaking boat (Passer)?

Safe Passing Situations and Right of Way

In passing situations, the overtaking boat has right of way (on the side of its choice) if a safe pass can be accomplished. If a pass is attempted, and there is not adequate room and time to perform the pass, the overtaking boat **must** delay the act of passing until it is safe to do so. The Patee must also be prepared to miss a few strokes to allow the Passer to pass safely and without obstruction.

Passing after the Start Line and before the BU Bridge is allowed with discretion, and at the sole responsibility of the passer to execute and complete the pass safely. The Passer may be penalized for any collisions or safety violations as a result of an attempted pass in this area. Non-Yield penalties to the boat being passed do not apply in this area.

Safe Yields

The Passer **must** allow time for the boat being passed to yield safely.

Severe Collision or Disregard for Safety

If either boat in a passing situation causes a collision or unsafe condition during passing, that boat will be severely penalized. The standard penalty is 60 seconds for Severe Collision (SC) or Safety Violation (SV).

What qualifies as collision?

Contact: Boats, Oars and Competitors

On a narrow river course, with many boats competing for space, there are many opportunities for physical contact between boats, people, equipment or combinations thereof. Some contact, such as clashing of oars may happen. Passing situations and multiple boats abreast in tight circumstances (e.g. going under bridge arches together) may result in incidental blade to blade contact, which is not penalized. Boats may interlock and/or clash oars. The umpire's judgment of the extent and consequences of the contact will determine whether or not a penalty is assigned. While incidental contact may not result in a penalty situation, it is poor steering on the part of the crew and will result in a slower time.

Avoiding Collisions

Competitors should do everything in their power to avoid collisions, which may result in boat stoppage, material damage, injury and penalties (SC = Severe Collision - 60 sec.)

Safety Violations

Aggressive and/or intentional contact between crews, may be more severely penalized (e.g. UC = Unsportsmanlike Conduct, or SV = Safety Violation, either of which can result in penalties ranging from 60 sec to disqualification).

Where is the Travel Lane and what restrictions apply?

Travel Lane

Travel lane area: Boston-side travel from the Finish Line to the Weeks Footbridge

Guidelines

- Proceed firmly, with no stopping to watch races, in single file so as not to leave the traffic lane.
- Do not row in pairs or 4s in larger boats unless instructed to do so by an HOCR Marshal.
- Watch your speed. Movement in the Travel Lane should be continuous, deliberate and moderate. No power strokes or racing starts are allowed. Pausing should only be done to maintain spacing, not for drills.
- Stay in the Travel Lane. Though oars may cross over the buoy line, you should keep your hull in the clearly marked Travel Lane. Buoy violations (hull over the line) may be penalized at 10 seconds per buoy, and any interference with racing crews (hull or blades over the line) can result in penalties ranging from 60 seconds to disqualification. Crews racing along the shared buoy line have priority and you will receive a penalty if you impact a racing crew.

- The Weeks Bridge turn (traveling downstream in the Travel Lane) and the Big Curve before CBC are very tight. Crossing the white buoys may result in a penalty and in a collision with a racing hull.

Q. What guidelines apply to crossing the racing lanes after launching?

- Make certain there is a safe crossing interval between racing crews (typically between events) and wait for a dock official or launch-site personnel to state that safe crossing is permitted.
- If your crossing impedes (including causing noticeable distraction to) a racing crew, you will be penalized 60 seconds.

Q. What is the penalty for missing buoys in the racing lane?

Every competitor must stay on the correct side of the buoys at all times (while racing, in transit to the start, returning, etc.). The first buoy violation adds 5 seconds to your time; each additional buoy violation adds 10 seconds.

Q. Safety: What should a boat do if equipment damage occurs while racing?

- In the event of equipment failure (lost oar, skeg, etc.) please move to the side of the race course and proceed slowly and carefully to the finish line. Do not impede oncoming crews.
- If the boat capsizes, stay with the boat.
- If a rower is ejected, stop the boat and protect the ejected rower until an emergency boat arrives.

map of umpire locations

Trailer spots are no cost and are first come first served. Due to overwhelming demand, institutions wishing to bring a trailer onsite must register in advance. Only trailers carrying 4 or more sweep-oared hulls will be permitted to park on-site. Trailers with fewer than 4 sweep hulls will be asked to unload their equipment and park at a secure lot upstream. We have a cap of 100 trailers. We will open the trailer waitlist after the initial 100 spots are filled.

FALS TRAILER PARKING

The FALS area will open for trailer parking on on **Thursday, October 16th from 7AM-4PM and from 7AM-1 2PM on Friday, October 17th**. Trailers arriving on Thursday will be parked in Lot 4. All trailers must approach the area from the Eliot Bridge end of Memorial Drive/ Soldiers Field Road. A Regatta volunteer will meet all trailers and issue the driver a parking permit for a specific area and direct the driver to that area. Courteous cooperation with their direction is expected.

Please enter the required permit information and leave the completed permit on the driver's side dashboard of the truck. If the driver chooses to take the truck, please place the permit in the plastic sheet protector provided, and attach it to the trailer with provided zip ties.

IN CASE OF EMERGENCY WE MUST BE ABLE TO CONTACT THE TRUCK OPERATOR. Trucks that detach from trailers and leave the parking area may not be able to return until Sunday afternoon.

Due to limited space, preference will be given to fully loaded trailers. Trailers with fewer than FOUR (4) Sweep Hulls will be required to off-load boats to FALS racks and park empty trailers in an overflow lot 2 miles further upriver.

NO OTHER VEHICLES ARE PERMITTED TO ENTER THE PARKING AREA. All unauthorized parked vehicles will be towed.

Vehicles carrying only single or double shells will not be permitted to enter the FALS. They will be directed to the Singles and Doubles Launching (SADL) area at Magazine Beach to offload their boats to racks. No trailer parking is available at Magazine Beach, but there is limited space for cars carrying shells.

DIRECTIONS TO FALS FOR TRAILER VEHICLES

- (Mass Pike) East to Exit 18 Brighton/Cambridge.
- Follow signs to Cambridge.
- Proceed through several traffic lights and cross the Charles River via the River Street Bridge.
- Once across the bridge, take a LEFT onto Memorial Drive so the river is on your left. Continue for 1.6 miles.
- When the road forks (near the Cambridge Boat Club), stay to the left, following signs for Watertown/Newton. Proceed through the traffic light, staying in the left or center lane to approach the Eliot Bridge.
- While crossing the Eliot Bridge, move to the right, and then turn to the right, following signs for Newton.
- Regatta Volunteer will meet trailers for registration and then direct them to a parking space.
- Please use the utmost caution when traveling on Soldiers Field Road, which is not designed for large vehicles.
- **DO NOT attempt to drive under any overpasses on Soldiers Field Road.**
- A portion of this route closes at 8AM Saturday and Sunday.
